

ACIDO PROVERTICAL

Thixotropic gelling agent for ideal stain coloured acids

Description

ACIDO-PROVERTICAL is a rheology modifier (soft solid) used to increase the viscosity of IDEAL WORK coloured acids. Increased thixotropy allows them to be applied easily on vertical surfaces.

Features

Added to the acid, it increases its viscosity, facilitating its application on vertical surfaces, limiting the risk of running and dripping.

Fields of use

ACIDO-PROVERTICAL is used in ACID STAIN creations on vertical surfaces to allow a controlled application and avoid running and dripping.

It is particularly suitable during the creation of Microtopping® Wall-Textures and for the acid staining of concrete walls.

Application

ACIDO-PROVERTICAL is added to the acid stain and mixed thoroughly.

The resulting gel can be applied by brush, sponge, roller or with different tools. The tool used as well as the methods of application strongly influence the final aesthetic result.

Technical information

Consult the safety data sheet.

Coverage

Add 20-40% of ACIDO-PROVERTICAL to the Acid stain mixture according to the desired density.

Packaging / storage / disposal

ACIDO-PROVERTICAL is available in packs of 1 Kg.

The shelf life of the product stored at 10°C - 20°C in its original container is at least 12 months.

Warnings

It is strongly recommended to carry out preliminary test samples of the product. Use suitable safety equipment during use. Consult the safety data sheet

IMPORTANT

All information contained herein is based on the best and most recently available practical and laboratory testing. It is the customers responsibility to determine that the product is suitable for their chosen application. The manufacturer assumes no responsibility for the results of incorrect applications. You should always test on a small area before full scale application. This document replaces all previous versions. The data can be changed at any time. Also note that the products are intended for professional use only. Ideal Work provides training, updates and refresher courses for their regular customers on request. Anyone using these products without being enabled does so at their own risk.
