HYDRO-DEFENSE

Protective water repellent (cod : HIDRO DEFENSE05)

Description
HYDRO-DEFENSE is a water-repellent solvent-based protective coating that increases the water repellence of Microtopping® surfaces.

Features
- Easy to apply over existing polyurethane coatings (Ideal PU 78 or WB EASY)
- Excellent adhesion to substrate
- 100% matt finish. It does not change the hue of the background

Fields of use
It is recommended for Microtopping® surfaces in frequent contact with water, such as the walls of shower cubicles, sinks, kitchen countertops and other surfaces. It is not suitable for walkable surfaces.
Helps prevent the formation of limescale deposits on wet surfaces.

Application
The surfaces for application must be dry, clean, free of any foreign substances and loose particles.
We recommend washing the surface with IDEAL WORK PERFETTO detergent before application. Apply HYDRO-DEFENSE evenly with a rag or brush. Typical application is 1 coat.
Wait at least 24 hours after application before using the treated surface.
The product can be reapplied after 6-18 months depending on the conditions of use.

Technical information
Consult the safety data sheet.

Consumption
The consumption on a Microtopping® surface is about 20g/m^2.

Packaging / storage / disposal
Available in 0,5 L packs. The produc, if stored in a dry and ventilated place with temperatures between +5°C and +30°C, is guaranteed for 12 months.

Warning
After applying HYDRO-DEFENSE, no water-based products or resins can be applied to the surface.
