

IDEALPU-WB-OPACIZZANTE

Matting agent for IDEALPU-WB EASY

Description

Mixed with the Ideal IDEALPU-WB-EASY polyurethane resin, it reduces the reflection, giving the surface a completely matt effect. It has a strong attenuating effect on pastel colors.

Features

IDEALPU-WB-OPACIZZANTE is a ready-to-mix liquid with IDEALPU-WB-EASY component A.

Uses

Additive for IDEALPU-WB-EASY in cases where you want to eliminate any brightness or reflection from the flooring

Application

IDEALPU-WB-OPACIZZANTE is used only in the last coat.

Mix the product with the resin only immediately before use.

Shake well before use. Add IDEALPU-WB-OPACIZZANTE to component A at 10 %, then catalyze 10:2 (2 parts of component B for 10 parts of mixture). Then dilute with 10 % water.

Technical Information

See the safety data- sheet.

Consumption

Consider a consumption of 10 % of the amount calculated for component A of IDEALPU-WB-EASY. One pack of 500 g is sufficient for a pack of 6 kg (5 kg A+ 1 kg B) of IDEALPU-WB-EASY.

Packaging / Storage / Disposal

Available in packs of 0,5 kg.

Can be stored for at least 12 months in its original package closed at temperature between 10° and 25°.

Precautions

See the safety data- sheet.

IMPORTANT:

The writer disclaims any responsibility for the achievement of the services declared for the system and for the success of the work if it is performed even partially in contrast with these guidelines or with products not covered by them.

The writer also declines any responsibility for the aesthetic aspect of the flooring that depends on the installation methods, the working times and the thermo-hygrometric conditions of the site that the applicator must take into account in relation to the processing of the materials supplied by the writer.

The applicator notes that Ideal work is in no way responsible for the suitability of the solution chosen in relation

a) under construction conditions such as sub-fund status, thermo-hygrometric conditions or any other parameter which may affect the performance of the Ideal Work products in operation.

B) the stresses to which Ideal Work products may be put into operation.

It also notes that the indications provided by Ideal Work in its technical documentation are to be considered a necessary condition but do not in any way relieve the enforcer of the responsibilities and technical evaluations of the performer. The data can be changed at any time. Also note that the products are intended for professional use only.
