The book of works

Dear Reader, the catalogue you are about to peruse is a selection of the best projects created by Ideal work, a leading company in more than 80 countries in the world for the creation of floors and decorative coatings in concrete.

Gentile lettore, il catalogo che ti stai apprestando a sfogliare è una selezione dei migliori progetti realizzati da Ideal Work, azienda leader in più di 80 paesi nel mondo per la realizzazione di pavimentazioni e rivestimenti decorativi in calcestruzzo.

Cher lecteur, le catalogue que vous allez feuilleter est une sélection des meilleurs projets réalisés par Ideal Work, société leader dans plus de 80 pays dans le monde pour la réalisation de revêtements de sol et de revêtements décoratifs en béton.

Estimado lector, el catálogo que está a punto de leer es una selección de los mejores proyectos realizados por Ideal Work, una empresa líder en más de 80 países en la realización de pavimentos y revestimientos de hormigón decorativo.

In our hands cement takes shape

Cement is at the heart of all our solutions. A unique material that is flexible and workable in various forms. Original material colourable in infinite shades. Durable as it becomes more resistant over time.

Nelle nostre mani il cemento prende forma

Il cemento è il cuore delle nostre soluzioni. È un materiale unico perché duttile e lavorabile nelle forme più svariate, originale perché personalizzabile in numerose tinte e gradazioni, durevole perché resistente all'usura nel tempo.

Entre nos mains le ciment prend forme

Le ciment est le cœur de nos solutions. Un matériel unique car ductile et maniable dans les formes les plus variées, original car colorable en d'infinies tonalités, durable car résistant à l'usure dans le temps.

En nuestras manos el hormigón toma forma

El hormigón está en el corazón de todas nuestras soluciones. Un material único que es flexible y trabajable en varias formas. Material original coloreable y personalizable en tonos infinitos. Durable, ya que se vuelve más resistente con el tiempo.

The beauty of cement

Cement is an innovative and creative material that is especially suitable for the requirements of architects and designers as the perfect coating for an infinite variety of surfaces that blends harmoniously with other elements like glass, wood, stone and steel.

L'estetica del cemento

Il cemento è un materiale innovativo e creativo, che si presta particolarmente alle esigenze di architetti e designer per la sua capacità di rivestire infinite superfici e di integrarsi in armonia con altri elementi come vetro, legno, pietra e acciaio.

L'esthetique du ciment

Le ciment est un matériau innovant et créatif qui se prête particulièrement bien aux exigences des architectes et des designers pour sa capacité de recouvrir d'infinies superficies et de s'intégrer en harmonie avec d'autres éléments comme le verre, le bois, la pierre, et l'acier.

La estética del hormigón

El hormigón decorativo es un material innovador y creativo que es especialmente adecuado para las exigencias de los arquitectos y diseñadores por su capacidad en revestir una infinita variedad de superficies e integrarse armoniosamente con otros elementos como el vidrio, la madera, la piedra y el acero.

Innovation, sustainability and design

Ideal Work offers you a new way of transforming the space around you. Concrete surfaces stylishly embellish any room, bestowing a modern look with low environmental impact, as demonstrated by numerous tests.

Innovazione, sostenibilità e design

Ideal Work ti offre un modo nuovo per trasformare lo spazio che ti circonda. Le superfici in cemento impreziosiscono con stile ogni ambiente, donando un'estetica moderna a basso impatto ambientale, come certificato da numerosi test.

Innovation, durabilite et design

Ideal Work vous offre une nouvelle manière de transformer l'espace qui vous entoure. Les surfaces en ciment enrichissent avec style chaque espace, en donnant une esthétique moderne ayant un impact réduit sur l'environnement, comme le certifient de nombreux tests.

Innovación, sostenibilidad y diseño

Ideal Work le ofrece una nueva forma de transformar el espacio a su alrededor. Las superficies de hormigón decorativo embellecen con estilo cualquier ambiente, dándole un aspecto moderno con bajo impacto ambiental, como lo certifican numerosas pruebas.

A solution for every need

Ideal Work's innovative surfaces are designed to meet any kind of architectural requirement. They can be applied to both interiors and exteriors and are perfect for private residences, commercial businesses and large public spaces.

Una soluzione per ogni esigenza

Le superfici innovative Ideal Work sono state pensate per esaudire ogni tipo di esigenza architettonica. Si possono applicare sia in interno che in esterno e sono ideali per abitazioni private, esercizi commerciali e grandi spazi pubblici.

Une solution pour toutes les exigences

Les superficies innovantes Ideal Work ont été pensées pour exhausser toutes sortes d'exigences architectoniques. Elles peuvent être appliquées aussi bien à l'intérieur qu'à l'extérieur, et sont idéales pour les habitations privées, les activités commerciales, et les grands espaces publics.

Una solución para cada necesidad

Las superficies innovadoras de Ideal Work están diseñadas satisfacer cualquier tipo de requisito arquitectónico. Se pueden aplicar tanto a interiores como exteriores y son perfectos para residencias privadas, actividades comerciales y grandes espacios públicos.

New construction or renovation

Our materials are open to variation and innovation in order to offer flexible, tailor-made solutions: this is our philosophy. Even if there are only a few millimetres or significant thicknesses available, it makes no difference to us.

We can create floors and external surfaces that can be adapted to both new and the restoration of existing buildings.

Nuove costruzioni o riqualificazioni

Reinterpretiamo i materiali proponendo soluzioni flessibili e personalizzabili: questa è la nostra filosofia. Pochi millimetri a disposizione o spessori elevati per noi non fanno la differenza: sappiamo infatti creare pavimenti e superfici che si adattano sia a nuove costruzioni che alla ristrutturazione di edifici esistenti.

Nouvelle construction ou la rénovation

Nous innovons et réinterprétons les matériaux en proposant des solutions flexibles et personnalisables: c'est notre philosophie. Les faibles ou grosses épaisseurs ne font aucune différence pour nous: en effet, nous sommes capables de créer des revêtements et des surfaces qui s'adaptent aussi bien aux nouvelles constructions qu'à la réhabilitation d'édifices existants.

Nueva construcción o renovación

Innovamos y reinterpretemos los materiales, ofreciendo soluciones flexibles y personalizables: esta es nuestra filosofía. Bajos espesores o altos no hacen ninguna diferencia para nosotros: de hecho, somos capaces de crear revestimientos y pavimentos que se adaptan tanto a las nuevas construcciones como a la rehabilitación de edificios existentes.

Our strength is through our qualified partners

The handcrafted nature of Ideal Work materials requires qualified installers. This is why we believe strongly in the importance of training and updating our installers in order to always be able to offer you the best result.

A man in a white t-shirt with the 'ideal WORK' logo on the back is applying a white material to a wall using a trowel. The background is a solid brown color.

La nostra forza è nella posa qualificata

La natura artigianale dei materiali Ideal Work richiede una lavorazione qualificata: perciò crediamo nell'importanza della formazione e dell'aggiornamento continuo dei nostri applicatori, per offrire ai clienti sempre il miglior risultato.

Notre force, c'est la pose qualifiée

La nature artisanale des matériaux Ideal Work demande un travail qualifié: c'est pour cela que nous croyons en l'importance de la formation et de mise à niveau de nos d'applicateurs, pour toujours vous offrir le meilleur résultat.

Nuestra fuerza esta en el aplicador calificado

La naturaleza artesanal de los materiales Ideal Work requiere aplicadores calificados: es por eso que creemos en la importancia de la formación y la mejora de los profesionales para ofrecerle siempre el mejor resultado.

Not only a client but a partner

We are present throughout the world, in more than 80 countries, with a network of specialized partners and applicators. We work very closely with the installers, assisting them during projects, large or small, in addition to informing them about construction sites and supporting their marketing campaigns.

Un partner non solo un cliente

Siamo presenti in tutt'Europa con un network di applicatori specializzati. Lavoriamo al fianco dei posatori affiancandoli nella realizzazione di progetti, grandi o piccoli che siano, oltre a segnalare cantieri e a supportare la loro azione commerciale.

Un partenaire, pas seulement un client

Nous sommes présents dans plus de 80 pays dans le monde avec un réseau de poseurs spécialisés. Nous travaillons en étroite collaboration avec les poseurs, en les accompagnant durant la réalisation des projets, qu'ils soient grands ou petits, outre à signaler les chantiers, et à soutenir leur action commerciale.

Un partner no es sólo un cliente

Estamos presentes en más de 80 países con una red de aplicadores especializados. Trabajamos en estrecha colaboración con estos profesionales acompañándolos durante la ejecución de los proyectos, ya sean grandes o pequeños, además del seguimiento en las informaciones sobre obras y apoyo a sus actividades comerciales.
