

## POLISH SOAP

### Polishing soap for concrete surfaces

#### DESCRIPTION

POLISH SOAP consists of a mixture of fine soaps, added with penetrating, wetting and polishing substances.

#### APPLICATION AND CONSUMPTION

The product has to be diluted in water: dilution rate 1 to 15

One litre of this product covers approximately 100 m<sup>2</sup> of Industrial Floor, or of decorative internal floor, previously treated with Ideal Hard densifier.

Apply the product with a watering can, then massage in 3 steps with a brush equipped machine:

1° step: - White Twister disc

2° step: - Yellow Twister disc

3° step: - Green Twister disc

After these 3 steps, the floor has to be washed with clear water and dried carefully with a liquid aspirator.

#### CAUTION AND STORAGE

Frost sensitive.

Store in closed containers in a cool and ventilated place. Shelf life is about 12 months, in its original containers.

Close immediately after use.

POLISH SOAP IS FOR PROFESSIONAL USE ONLY.

Ideal Work suggests that a representative job site sample should be made for approval before any work takes place.

#### PACKAGING

Polish Soap is available in 5 LT cans.
